Profile

Computer Science undergraduate with skills in Python, SQL, and Web Development. Basic exposure to React Native and AWS Cloud through projects. Completed multiple industry internships and seeking an entry-level Software Developer or IT role.

Internship

Certified Industrial Training, *iFive Technology Private Limited*

Chennai

Acquired practical knowledge of SQL for database creation, storage, and retrieval.
Gained experience in writing and executing queries for managing structured data.
Understood the role of SQL in real-world IT projects and applications.

Data Analytics Job Simulation, *Deloitte (Forage)*

Completed a virtual job simulation involving data analysis, forensic technology, and business problem-solving using practical real world tasks.

Industrial IoT & Industry 5.0 Intern, *InGage Technologies Pvt Ltd*

Completed an Industrial IoT & Industry 5.0 internship, gaining foundational knowledge of IoT technologies, industrial automation, and smart manufacturing.

Skills

• HTML • CSS • Python • SQL

Projects

Red Ball Rush – 2D Endless Runner Game, *Mobile Game Development using React Native*

- Developed a mobile endless runner game using React Native and Expo.
- Implemented collision detection, score tracking, touch controls, and restart functionality.

AI Workflow Integration (MCP), *AI Workflow Integration using Model Context Protocol.*

- Explored the fundamentals of Model Context Protocol (MCP) and integrated AI with real-world tools such as Cursor IDE, Pipedream, and MCP Servers.
- Gained hands-on experience in building prompt-driven AI workflows through the NxtWave MCP Mega Workshop.

Generative AI Web Application, *AI-Powered Text Generation Web App*

- Built a frontend web application using HTML, CSS and integrated with a Hugging Face Generative AI model for text generation. Implemented API integration and prompt-based user interaction.

Foodiefoof, *Cloud-Based Web Application Deployment*

Developed the front-end of a responsive webpage using HTML, CSS, and Bootstrap, and successfully deployed it on Amazon Web Services (AWS) using EC2, RDS, Route53, S3 and CloudFront.

Library Management Using Python

Designed and developed a Library Management System using Python, Tkinter, SQL (MySQL), and MySQL Connector, implementing CRUD operations and database connectivity.

Education

B.SC. Computer Science, *Loyola College of arts and science Mettala*

06/2023 – 05/2026

Passed out with 7.04 CGPA

HSC, *Government Higher Secondary School Thangachimadam*

2023

Passed out in 2023 with 66.5%

Languages

• Tamil • English
